EDUCATION

Ph.D.,1992-1996. University of Toronto Joint Centre for Bioethics, Institute of Medical Sciences, University of Toronto. Area of study: Culture and Bioethics.

Fellowship in Cultural Psychiatry, University of Toronto Department of Psychiatry, 1993-1995.

Master of Social Work, University of Toronto, 1987.

Bachelor of Social Work, University of British Columbia, 1986.

Bachelor of Arts, Clinical Psychology, York University, 1979.

AWARDS & SCHOLARSHIPS

- University of Toronto "100 Alumni Who Shaped the Century" University of Toronto Magazine, Spring 2000.
- International Doctoral Fellowship--(AHCPH) Agency for Health Care Promotion and Research Department of Health and Human Services USA, August 1995 - August 1996
- University of Toronto Open Fellowship, 1995
- University of Toronto Open Fellowship, 1994
- University of Toronto Open Fellowship, 1993
- University of Toronto Open Fellowship, 1987
- Premier's Scholarship, Province of British Columbia, 1986

ACADEMIC APPOINTMENT

Assistant Professor of Family and Community Medicine Faculty of Medicine, University of Toronto.

Department of Philosophy York University Atkinson College

EMPLOYMENT

University of Toronto Joint Centre for Bioethics, Toronto, Ontario.

July 1998- present

Co-ordinator of the Improving End of Life Care Project;

Assist hospital health care providers (through consultation, focus groups and seminars) to identify, implement and evaluate short cycle, large effect clinical improvements related to improving end of life care.

Implement a research study which will conduct audio and/or video taped interviews with family members who have experienced the loss of a loved one in the last 6 months to a year. Identify families' perceptions of the in-hospital dying process through qualitative analysis. Develop a strategy for imminent feedback to health care teams.

Introduce the 'Appropriate Use of Life Sustaining Treatment Policy' to relevant hospitals through seminars and focus groups. Train health care providers in enhanced communication and mediation skills related to end of life decisions. Assist in the research measurement of this policy through qualitative interviews on end of life care with patients, families, and care providers.

Mount Sinai Hospital, Clinical Bioethicist;

July 1999-present

My responsibilities divide into three main interrelated areas:

Clinical

- Provide consultation services to Mount Sinai staff, families, and patients regarding specific ethical problems in patient care or health care delivery, as well as more general ethical issues (e.g., policy review and development)
- Work with the Mount Sinai Ethics Committee and serve as a member

Teaching

- Provide (continuing) ethics education to Mount Sinai staff (e.g., program or discipline specific rounds, discussions, workshops, formal presentations, conferences)
- Teach and supervise graduate students enrolled in the University of Toronto Joint Centre for Bioethics' Collaborative Program in Bioethics and MHS in Bioethics

Research

- Provide ethics consultation related to the development of research at Mount Sinai Hospital
- Undertake specific bioethics related research projects at Mount Sinai and disseminate research findings (e.g., by publishing articles/books, presenting at conferences, serving as a media resource)
- Link research with education and clinical ethics problems faced at Mount Sinai

The Toronto Hospital, Western Division, Toronto, Ontario.

June 1989 - June 1998.

Social Worker, Intensive Care.

Duties: Provide supportive or grief counselling to families in response to the emotional upheaval of an intensive care unit admission. Provide emotional support to families in

the event of unsuccessful life sustaining treatment. Co-ordinate necessary community resources for patients and/or families. Scheduling and chairing of family conferences.

Social Worker, Emergency Medicine.

Duties: Provide psycho-social assessment, short term or crisis counselling and appropriate community or hospital follow-up treatment for patients and families in the following situations: situational crises, patient experiencing difficulty coping in the community (i.e., frail elderly people with disabilities), assault, suspected physical and/or sexual abuse, substance abuse, psychiatric disorders, homelessness.

Refugee Health Worker Children's Division. Oxfam UK, Umm Dawm, Sudan.
October 1988-January 1989.

Duties: The emergency health care of displaced and orphaned children. Street duty.

Refugee Health Worker. Addis Ababa and East Wollo Province, Ethiopia January 1989-March 1989.

Duties: Provision of food distribution and health care to refugees displaced by the war.

The Toronto Hospital, Western Division, Toronto, Ontario.
June 1987-October 1988.

Social Worker, Nephrology.

Duties: Social work services to renal patients consisted of assisting patients and caregivers in psycho-social adaptation to illness. This was done through supportive counselling and the provision of information and resources related to the health care system, the community and The Kidney Foundation of Canada.

The Toronto Hospital, Western Division, Toronto, Ontario.
September 1986 - June 1987.

Social Work practicum, Palliative Care Program.

Duties: The provision of supportive or grief counselling to patients and caregivers, as well as the co-ordination of appropriate health care and community resources.

The Hong Kong College of Language and Commerce, Kowloon, Hong Kong.
July 1984 - February 1985.

Duties: The teaching of English to 30 young adults. Responsible for lesson and activity planning for classes with 3-4 students. Much of the teaching was conducted on a conversational and experiential basis.

New South Wales Department of Youth and Community Services, Sydney, Australia.
March 1982 - June 1983.

Brougham Receiving Home. Youth Worker.

Duties: Provided overall care for 14 - 20 children in the care of the state, aged infant - 10 years. Wrote individual treatment and activities plans, organized children into activity groups and supervised children with visiting parents.

Yasmar Remand Centre, Program Supervisor.

Duties: Organised programs and activities in a remand centre for 70 adolescent boys. Conducted staff training, planned and conducted group activities, and provided individual and group counselling.

Central Toronto Youth Services, TYRO Program, Toronto, Ontario.

May 1979 - September 1981.

Case Co-ordinator.

Duties: Provided overall case co-ordination for adolescents in a program designed to accommodate high-functioning developmentally handicapped adolescents who also had emotional, behavioural or psychiatric problems.

Children's Aid Society of Metropolitan Toronto, Melville Assessment Residence,

Toronto, Ontario.

September 1978 - May 1979.

Child Care Worker.

Duties: Provided care and supportive counselling to adolescents in the care of the province, assessed adolescents for treatment planning and future placement.

Metropolitan Toronto Association for Community Living, Shepherd Assessment

Residence, Toronto, Ontario.

September 1977 - May 1978.

Residential Counsellor.

Duties: Responsible for care, assessment and life skills training of developmentally handicapped adults. Worked on a team with 3 other staff members. Assessed client skills for independent community living, assisted clients in the development of life skills.

Gary Taylor Centre, Montreal, Quebec.

September 1974 - August 1976, summers of 1977 & 1978.

Child Care Worker.

Duties: Provided care for developmentally handicapped and autistic children and adolescents, aged 4 -20 years. Shared responsibility for a unit of 12 children with one staff member. Implemented individual behaviour modification programs.

TEACHING EXPERIENCE

University of Toronto, Toronto, Ontario.

Joint Centre for Bioethics, Regular seminars in bioethics, MHSc program, International graduate program and the collaborative program.

York University, Philosophy 3600: Health Care Ethics.

Faculty of Medicine: Ongoing seminars on several topics in bioethics, particular focus on cultural pluralism in health care, Improving end of life care and conflict resolution in health care.

Department of Rehabilitation: Ongoing seminars on several topics in bioethics

Faculty of Nursing: Ongoing seminars on several topics in bioethics

Conservation Biology: Ongoing seminars on blending conservation with human needs and priorities

Department of Philosophy: Cultural considerations in bioethics.

Faculty of Social Work: Cultural Considerations in Health and Illness, Bioethics, Qualitative Research and Conflict Resolution.

Mount Sinai Hospital: Regular in-service training in the following departments: Critical Care Nursing, Social Work, Anaesthesia, Respiratory Therapy, Rehabilitation Medicine. Topics include: Bioethics, families and critical illness, crisis intervention, dealing with families of trauma, culture and illness, working with the dying, grief and bereavement, cultural pluralism in health care.

Palliative Care Information Centre of Metropolitan Toronto: Advanced practice in End of Life Care, April-May 1999, 2000,2001, 2002.

RESEARCH ACTIVITIES

AHCPR International Doctoral Scholarship: ethnographic, qualitative research on Chinese Canadian Attitudes Toward End Of Life Decisions.

Primary Investigator, ethnographic study: African Attitudes Toward the Killing and Eating of Gorillas and Chimpanzees. Submitted to the European Union and the Ministry of Environment, Cameroon Republic.

Clinical Research Fellowship-Cultural Psychiatry (1996-1998) University of Toronto, Department of Psychiatry.

Palliative Care Foundation of Canada: Qualitative content analysis of over 6,000, articles related to end of life care to identify areas of research themes, concentration, and strengths and deficiencies.

Chair, Toronto Cross Cultural Research Network, Clarke Institute of Psychiatry (1994).

DIPLOMAS

Educating Physicians in End of Life Care, American Medical Association, Chicago, Illinois, USA, March 1999.

Advanced Mediation in Health Care. Harvard University, Cambridge, Massachusetts. April 1999.

CONSULTATION

Centre for Disease Control, Atlanta, Georgia: (1999-ongoing) Consultation on cultural and ethical considerations in studying HIV/SIV pathogens in African non-human primate hunters.

Conservation International: (1998-ongoing) Consultation on cultural and ethical considerations in conservation and ecological management. Consultation given in both Africa and the United States.

The People's Republic of China: (1998) On site consultation provided on "improving end of life care" to hospitals and community based programmes in the Zhabei district of Shanghai, People's Republic of China.

Republic of South Africa: (1999-2002) Soweto Hospice, Gauting Province. Western Cape Palliative Care Services.

Ontario Association of Social Workers: (2000-present) Ethics Consultation on policy and individual case review.

Yee Hong Program for Senior Care Toronto: (2003-present) Ongoing ethics training and consultation.

CCAC (Community Care Access Centre): (2003-present) Ongoing ethics training and consultation.

Humber River Regional Hospital: (2003-present) Ongoing ethics training and consultation.

COTA (Comprehensive Rehabilitation and Mental Health Services) (2003-present) Ongoing ethics training and consultation.

Ian Anderson Program in Improving End of Life Care

Primary Instructor and Board of Directors member in program that helps educate 10,000 primary care physicians and specialists across Canada over a five year period to deal with death and dying. The program promotes a variety of educational techniques including small group problem-based learning, case-based teaching and distance learning.

PRIMATOLOGY/CONSERVATION

President; The Canadian Great Ape Alliance.

2000-present.

Mission statement: The Canadian Great Ape Alliance advances conservation and awareness of all Great Apes and the environments they live in, by respecting human need. All conservation strategies are designed to reflect local cultures, as well as

economic and political realities. We see The Great Apes as ambassadors of the ecosystems they live in; we believe all life matters. Because the needs of the Great apes are complex and vast, our team includes people from all walks of life. We believe through coordinated individual action, we can improve the environment of all Great Apes and other living things.

Member, Board of Directors; The Jane Goodall Institute

2003-present

Research Associate; The Gorilla/Chimpanzee Protection Project

April 1997- present

The Republic of Cameroon, The Republic of Congo.

Ongoing development of gorilla/chimpanzee conservation programmes built on the needs of African communities, involving onsite work in Africa.

Research Assistant:

August – November 1994

Camp Leakey, Borneo Indonesia. Behavioural observation of Orangutan, identification of food sources, nesting sites, and birthing behaviour.

Research Assistant:

January 1982-April 1982

Ketamba Research Station, Aceh Province, Sumatra Indonesia. Behavioural observation of Orangutan, identification of food procuring habits and nesting behaviour.

Primary Investigator; “African Attitudes Toward the Hunting/Consumption of Gorillas and Chimpanzees”. An ethnographic study exploring the social, economic, cultural and moral perspectives toward Gorilla/Chimpanzee hunting, meat trading and consumption. Report compiled for The European Union and The Cameroon Ministry of Environment.

DOCUMENTARIES

"Bushmeat" The Discovery Channel. Explores the economic, cultural and political complexities of the decimation of the great apes of Africa. Shot on location in The Republic of Cameroon. Featuring Dr. Kerry Bowman and Dr. Jane Goodall.

“Ghosts of Lomoko” Four years after civil war forced them to flee the region, international conservationists have returned to the Democratic Republic of Congo (DRC) to find humankind’s closest genetic relative the bonobo, in dire straits. This expedition follows Jef Dupain, bonobo primatologist, Dr. Kerry Bowman, a University of Toronto professor and founder of the Canadian Great Ape Alliance, and Karl Amman, a renowned wildlife photographer and conservation activist. Their trip was financed by Canadian International Development Agency (CIDA) and a number of Canadian television funding agencies and is the subject of a documentary to be broadcast on CBC’s The Nature of Things.

COMMITTEES/BOARDS

- Mount Sinai Hospital Clinical Ethics Committee (1999- present)
- Mount Sinai Ob/Gyn Ethics Committee (1999-present)
- Ontario Association of Social Workers-Ethics Committee (2000-ongoing)

INTERNATIONAL, CROSS-CULTURAL EXPERIENCE

I have worked in refugee health in both The Sudan and Ethiopia. I am frequently in Central Africa working on projects that involve the interface of development and conservation. I have provided on site consultation in, South Africa, Germany and The People's Republic of China on improving end of life care. I have travelled extensively through Africa, Latin America, the South Pacific, Australia, Europe and Asia, and have spent over three years in the Third World.
